

# EC1260BL

## Combination Warmer

The EC1260BL is designed to safely warm and store blankets and either irrigation fluids or injection fluids.

The Dual-chambered warming cabinet is constructed with stainless steel exterior casing and door with handle and hinges designed to withstand heavy usage. The cabinet is warmed using a low-heat-density electrothermal cable array. The electrothermal cable is positioned in the floor and two sides of the warming cabinet, providing even heating of the interior chamber.

**WarmRight:** Provides the right temperature for the right product.

**Durable:** The affordable, rugged stainless steel cabinets are made to last and work just as hard as you do.

**Glass Door:** Energy-efficient coated glass door reflects heat back into the cavity.

**Service:** Our worldwide support team is dedicated to providing quality equipment. We walk with you every step of the way to maximize your return on investment.

**Made in the USA** with a commitment to quality

**An ISO 13485:2016 certified company**
